CEO Klas Balkow comments:
"We are continuing to grow in a generally weak retail sector, and we noted our highest ever quarterly earnings. We are continuing to develop our strong base in the Nordic region, with particularly favourable growth in Finland.
With strong finances and a strong cash flow, we are investing in continued expansion toward our long-term objective of becoming a leading European retail trade chain. We plan to open 15-20 new stores during the coming financial year," says Klas Balkow, President and Chief Executive Officer."

## Operations

Operations comprise the sale of products for house and home, technology and hobby through the company's own stores and via mail order/Internet channels. The product range focuses on attractively priced products for everyday use. Activities are pursued in Sweden, Norway, Finland and the UK. The number of stores at the end of the period was 152 , of which 64 were in Sweden, 55 in Norway, 21 in Finland and 12 in the UK.

During the third quarter, three new stores were opened; one in Norway and two in Finland. A total of 13 stores were opened during the first nine months of the financial year.

## Sales and profits

## The third quarter (November-January)

Sales rose 7 per cent to SEK 2,049 M, compared with SEK I,906 M in the year-earlier period. Growth during the third quarter was impacted by lower sales in comparable stores due to a generally weak market, which affected consumption and the retail sector in general. In local currencies, sales increased 7 per cent. Compared with the corresponding period in the preceding year, $\mathrm{I} 6(20)$ stores were added and the total number of stores on 3I January 2012 was 152. Mail order/Internet sales amounted to SEK 3 I M (28).

Sales were distributed as follows:

| $\underline{\text { Sales areas (SEK M) }}$ |  |  | Percentage change | Percentage |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | change, |

The sales increase of 7 per cent was distributed as follows:
Comparable stores in local currency

- 2 per cent

New stores
+9 per cent
Exchange rate effects
+/- o per cent
Total
+7 per cent
The gross margin was unchanged year-on-year at 42.4 per cent (42.4). The margin was impacted positively by exchange rate effects (USD) and negatively by sales mix during the quarter.

The share of selling expenses declined o.7 percentage points to 25.2 per cent (25.9). The decrease resulted mainly from lower start-up costs and increased productivity, but was also reduced in part by lower sales in comparable stores. The start-up costs for new and renovated stores, including the disposal of fittings, amounted to SEK io M (4I).
Depreciation for the period amounted to SEK 45 M compared with SEK 4I M for the year-earlier period. The increase was mainly due to new stores.

Operating profit amounted to SEK 307 M (270).
The operating margin was 15.0 per cent (I4.I).
Profit after financial items totalled SEK 305 M (268).
Spot exchange rates for key currencies averaged SEK i.I6 for NOK and SEK 6.8I for USD, compared with SEK I.I4 and SEK 6.78, respectively, in the year-earlier period. Currency hedging was undertaken in USD and NOK. The company's policy is to hedge 50 per cent of the expected flow during a catalogue period.

## The first nine months (May-January)

Sales rose 7 per cent to SEK $4,988 \mathrm{M}$ compared with SEK $4,664 \mathrm{M}$ in the year-earlier period. In local currencies, sales increased 7 per cent. Mail order/Internet sales amounted to SEK 72 M , compared with SEK 69 M in the corresponding period of the preceding year.

Growth during the first nine months was impacted by lower sales in comparable stores.
Sales were distributed as follows:

| Sales areas (SEK M) |  |  |  | Percentage |
| :---: | :---: | :---: | :---: | :---: |
|  | 2011/I2 | 2010/II | Percentage change | change, local currency |

| UK | 202 | 179 | + 12 | +17 |
|  | 4,988 | 4,664 | + 7 | + 7 |

The sales increase of 7 per cent was distributed as follows:

| Comparable stores in local currency | -4 per cent <br> New stores <br> Exchange rate effects <br> Total i per cent <br> +/- o per cent |
| :--- | ---: |
|  | +7 per cent |

The gross margin was 42.4 per cent compared with 42.0 per cent in the year-earlier period. The increased margin was mainly attributable to positive exchange rate effects (USD) and a greater proportion of direct purchasing.

The share of selling expenses increased o. 2 percentage points to 28.8 per cent (28.6). The increase was due to lower sales in comparable stores and higher costs in connection with establishment in the UK, compared with the year-earlier period, but was offset in part by increased productivity and lower start-up costs. The start-up costs for new and renovated stores, including the disposal of fittings, amounted to SEK $39 \mathrm{M}(82)$.

Depreciation for the period amounted to SEK I 33 M compared with SEK ${ }_{\text {II }} \mathrm{M}$ for the year-earlier period. The increase was mainly due to new stores.

Operating profit amounted to SEK 550 M (504).
The operating margin was i 1 .o per cent (io.8).
Profit after financial items totalled SEK 54I M (498). Spot exchange rates for key currencies averaged SEK I.I7 for NOK and SEK 6.57 for USD compared with SEK 1.17 and SEK 7.15 , respectively, in the year-earlier period. Hedging was undertaken in USD and NOK. The company's policy is to hedge 50 per cent of the expected flow during a catalogue period.

## Investments

Investments during the first nine months of $2011 / 12$ totalled SEK 152 M (243). Of this amount, investments in new or renovated stores accounted for SEK 78 M (183). Other investments mainly comprise IT and replacement investments. Ongoing investments in e-commerce and IT-related support processes amounted to SEK 38 M (16) during the first nine months of 2011/I2.

## Financing and liquidity

Cash flow from operating activities for the period amounted to SEK $1,044 \mathrm{M}(485)$. The increase was attributable to a positive change in working capital, mainly due to improved inventory management. Cash flow for the period, after investment and financing activities, was a positive SEK 82 M (pos: 92 ). The utilisation of credit during the period was reduced by SEK 562 M (credit utilisation in the preceding year increased SEK ${ }_{\text {15I }}$ M). The ordinary dividend paid to Clas Ohlson's shareholders in September 201 I amounted to SEK 239 M (239).

The average i2-month value of inventories was SEK I,34I M ( 1,345 ).
At the end of the quarter, inventories amounted to SEK 1,204 M $(1,375)$. Compared with the same month in the preceding year, 16 stores have been added. The decrease in inventories derived mainly from improved inventory management.

During the first quarter of the financial year, buy-backs of the company's own shares in order to secure the Long Term Incentive Plan (LTI 20II) amounted to SEK i M (62).

Clas Ohlson's net cash, meaning cash and cash equivalents reduced by interest-bearing liabilities, amounted to SEK 217 M (previous year net debt SEK 249 M ). The equity/assets ratio was 59 per cent (52).

## Number of shares

The number of registered shares is $65,600,000$, unchanged compared with the year-earlier period. As of 31 January 2012, the company's holding of treasury shares amounted to $\mathrm{I}, 985,000(\mathrm{I}, 890,000)$, corresponding to 3 per cent of the total number of registered shares (3). The number of shares outstanding, net excluding treasury shares, was $63,615,000(63,710,000)$ at the close of the period.

To secure the company's commitment regarding conditional matching shares and employee stock options in connection with LTI 2011, Clas Ohlson bought back 126,520 shares during the first quarter of 201 I/I2 for a total of SEK ir M at an average price of approximately SEK 88 per share.

## Long Term Incentive Plan (LTI 2011)

In May 201 I, the long-term incentive plan LTI 201 I was introduced in line with the same structure as previously implemented LTI programmes. A total of 45 employees are participating in the new plan. In May 201 I, the participants purchased a total of 38,398 shares. The exercise price for the conditional employee stock options has been set at SEK io8.io per share with exercise possible between June 2014 and April 2018.

## Employees

The number of employees in the Group averaged 2,346 (2,149), of whom $1,009(924)$ were women. The distribution per country is $1,302(1,264)$ in Sweden, 615 (525) in Norway, 182 (168) in Finland, 213 (162) in the UK and 34 (30) in China.

## Parent Company

Parent Company sales totalled SEK $3,966 \mathrm{M}(3,694)$ and profit after financial items amounted to SEK 458 M (254).

Investments during the period totalled SEK 86 M (ioi). The Parent Company's contingent liabilities amounted to SEK 264 M (232).

## Events after the end of the reporting period

Sales during February increased i2 per cent to SEK ${ }_{427}$ M (383). In local currencies, sales increased io per cent. Compared with the same month in the preceding year, 16 stores ( 22 ) were added bringing the total number of stores to 154 as of 29 February 2012. Mail order/Internet sales amounted to SEK $7_{7} \mathrm{M}$ compared with SEK $7_{7} \mathrm{M}$ a year earlier.

Sales were distributed as follows:

## Establishment in the UK

Clas Ohlson is continuing to establish new stores in the UK but is balancing the expansion rate to match prevailing market conditions. The austerity measures introduced to improve public finances have had
a negative impact on the UK retail sector by reducing consumer spending and dampening the future outlook of UK consumers.

In August, a new store was opened in Newcastle, which means that Clas Ohlson now has a total of I2 stores in the UK. The response from our store customers in the UK is positive and, despite the harsh market climate, floor traffic in the UK stores exceeds the Group average. The conversion rate and average purchase in the UK is lower than the Group average. Clas Ohlson expects it will take time to establish the brand and its position in an entirely new market and the conversion rate, average purchase and turnover are expected to increase successively over the coming years. At the same time, the weak market trend is having a negative impact on Clas Ohlson's sales growth. UK consumer confidence (Consumer Confidence Index) reached its lowest level ever in October and November 2011 against a background of concern both for the country's economic situation and for the financial situation of consumers. The Consumer Confidence Index improved somewhat during December 201 I , but then declined again during January 2012.

The share of selling expenses in relation to sales is initially higher in the UK compared with the Nordic region where the company is already established. As a result, Clas Ohlson expects that reaching the break-even point for a new store in the UK will take significantly longer, given the higher rental and marketing costs necessary, compared with opening a new store in established markets in the Nordic region.

## Election of Clas Ohlson's Nomination Committee

Prior to the 2012 Annual General Meeting, which will be held on 8 September, the following persons have been elected to Clas Ohlson's Nomination Committee: Carl von Schantz, representing the Haid owner family; Göran Sundstrom, representing the Tidstrand owner family; Johan Held of AFA Försäkring, Johan Stahl of Lannebo Fonder and Anders Moberg, Chairman of the Board of Clas Ohlson AB. At the constitutional meeting that was held on 22 February 2012, Johan Held was named Chairman of Clas Ohlson's Nomination Committee.

The Nomination Committee's assignment is to present proposals for the election of the Chairman and other Board members prior to the coming Annual General Meeting, as well as fees and other remuneration for Board assignments payable to each Board member and the auditors. The Committee will also propose a person to serve as Chairman of the Meeting.

The composition of the Nomination Committee is based on ownership interests as of 30 September 201 I. Accordingly, a total of about 60 per cent of the Company's shares (votes) is represented on the Nomination Committee. The committee presented above will serve until a new Nomination Committee has been elected.

## Outlook

Clas Ohlson's business concept of offering a broad and attractively priced product range to conveniently solve the practical problems of everyday life is highly attractive in established markets. The concept is unique in Europe and offers potential for expansion to several countries and increasing market shares in existing markets.

Clas Ohlson continued to expand and reported positive business trends with healthy profits in its home markets during the most recent financial year. In coming years, establishment in new markets (currently the UK) is expected to have a negative impact of up to $2-3$ percentage points on Clas Ohlson's operating margin during a financial year. Growth in new markets in Europe will take place in accordance with the longterm financial objectives.

During the current 2011/2012 financial year, Clas Ohlson will establish a total of 18 stores, of which four will be established in Finland and one in the UK. The prerequisites for establishing new stores in the Nordic region continue to be regarded as positive despite a high degree of store concentration. The Finnish business operations have shown favourable development and the country offers continued healthy growth potential. Clas Ohlson also sees good, long-term growth potential in the UK, but
the rate of expansion will be adapted to prevailing market conditions.
During the 2012/2013 financial year, Clas Ohlson plans to establish 15-20 new stores.

Continued development of Clas Ohlson's product range and sales channels will create additional growth opportunities for the company in our primary markets in the Nordic region, where Clas Ohlson has achieved a high degree of market penetration.

## Long-term financial objectives

The objective for long-term sales growth is a minimum annual growth rate of io per cent, measured as the average annual sales increase over a five-year period. The profitability objective is to achieve an operating margin of at least io per cent annually.

## Risks and uncertainties

A number of factors affect the company's profit and operations. Most of these are managed through internal procedures, while others are governed to a greater degree by external circumstances. Clas Ohlson's business operations are exposed to financial and operational risks. Financial risks primarily comprise wage inflation, raw-material prices and exchange-rate exposure, while operational risks relate to establishment in the UK, purchasing in Asia, economic conditions, competition, logistics, strikes, key employees, social responsibilities, product range and shrinkage.

For a more detailed description of the Group's risks and risk management, refer to the 2010/20I I Annual Report. Apart from the risks described in the Annual Report, no other significant risks have arisen.

## Accounting policies

Clas Ohlson applies the International Financial Reporting Standards (IFRS) adopted by the EU. This interim report has been prepared in accordance with the Swedish Annual Accounts Act, IAS 34 Interim Financial Reporting and RFR i Supplementary Accounting Rules for Groups.

The Parent Company's financial statements have been prepared in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's Recommendation RFR 2. The same accounting policies are applied as for the Group, except in those cases indicated in the section headed "Parent Company accounting policies" on page 66 of the 2010/201I Annual Report. The same accounting policies and calculation methods are applied as in the latest annual report except as listed below.

The IASB (International Accounting Standards Board) has issued new and revised IFRS as well as interpretations that apply from i May
2011. These had no significant impact on the Group's profit or balance sheet.

For a more detailed description of the accounting policies applied to the Group and Parent Company in this interim report, refer to the 2010/20I I Annual Report, pages 64-66.
